I would like to see CCSGA take a more active role in asserting that status. A wide-ranging array of socio-cultural and intellectual events open to the Colorado Springs community at large, alongside the traditional campus-oriented atmosphere, would help break down the ever-present barriers that exist between our school and community. On campus, addressing the role of CC's questionable use of water, and its HUGE impact on the delicate environment of the state, is definitely worth addressing. David Wright		David.T.Wright@Colorado College.edu		At-Large Representative (4 2015 positions)	Yes	I would like to see the entire student body more involved in making decisions for the school as well as taking part in the campus community. On campus, I would love if CCSGA communicated with students on a daily basis, having dialogue about various experiences of students. Off campus, I would like to see more students integrated into service organizations or looking to work internships for local businesses. Another possibility may be more awareness for attending certain Colorado Springs government events. I'd like to see CCSGA continue to integrate President Jill and the other new members of the administration and staff into the CC community by further emphasizing transparency and communication between students, faculty, staff, and other community members. The relationship between CC and Colorado Springs also needs to be strengthened, and I think that can be done through more outreach and open events. As an Off-Campus Representative, I think I'd be well suited for helping bridge that gap. Sam Brody		john.brody@colorado31college.edu		Off-Campus Representative (2013 positions)	Yes	CCSGA provides a crucial service to the campus, one to serve the voice of the students. I'd like to see CCSGA continue to listen to the student body by opening up town halls within each community as well as with the whole campus. For my own district, "Off-Campus", I'd like to see CCSGA have weekly or bi-weekly meetings with our new campus safety director, and work with him to produce safety conduct packets for those living off campus.
