

# KEEP CC OPEN. GET TESTED.

---

Getting a COVID-19 test is a critical part of our plan to keep you and your fellow students on campus. Your cooperation if you have symptoms or if you participate in weekly random testing and contact tracing helps the college provide additional layers of safety.

All members of the CC community — including off-campus students — have access to symptomatic COVID testing.

**Students:**

should call the **Student Health Center: (719) 389-6384**

**Employees:**

should use the CC-specific UCH Nurse Triage Line: (833) 494-0560  
Pin#: 0801.

**Do your part:** get tested, wear a mask in public indoor & outdoor spaces, wash your hands frequently, and avoid gatherings of more than 10 people.

**Reduce the risk. Slow the spread.  
Care for CC.**

**Note:** Reducing the risk of a COVID-19 outbreak on the CC campus will take all community members practicing social responsibility. Those in violation of college safety and conduct policies may face suspension, dismissal, termination, and/or removal from campus.
