

NS³ NUCLEAR SCIENCE SUMMER SCHOOL

May 15-21, 2022 Michigan State University

NS3 is a summer school that aims to introduce undergraduate student participants to the fields of nuclear science and nuclear astrophysics. NS3 will be hosted by the National Superconducting Cyclotron Laboratory (NSCL) / Facility for Rare Isotope Beams (FRIB) at Michigan State University (MSU). The school will offer lectures and activities covering selected nuclear science and astrophysics topics.

Application Deadline: March 15, 2022

apply online: nscl.msu.edu/researchers/NS3.html

For questions about the school and/or the application process please email: ns3@nscl.msu.edu
