

Good day.

I am Fayaz King, Director and Clinical Counselor of Supply Division of United Nations International Children's Emergency Fund (UNICEF).

I provide individual and group therapy, coaching, assessment, and academic screenings to support Students and educational workers with disabilities (Physical, Chronic, Psychiatric, & Invisible) registered with UNICEF. A large percentage of the students and adult educational workers served by the mental health unit have psychiatric disabilities or co-morbid psychiatric disabilities and need mental health support to be successful at the educational institutions.

In addition, many University Students with academic difficulties and no prior diagnosis are seen and assessed through the academic screening and assessment process. I also am the director of supervision, training and coordination of counseling psychology and clinical psychology graduate students in the United States who have practicums at UNICEF and APA-accredited school psychology pre-doctoral interns.

Since the start of the COVID-19 outbreak, UNICEF has been delivering health supplies to many University Students and adult educational workers with academic difficulties to help in their response to the pandemic.
