PREAMBLE Colorado College recognizes the rights of students to belong to form an organization to promote and develop their common interests. Any student organization with its administrative head on campus which wishes to use the College's name, facilities or financial resources and to sponsor activities open to the campus and general public must adhere to the following system of certification established by the Colorado College Student Government Association. This system shall provide two types of certification – recognition and chartering – and it shall provide requirements for the funding of student organizations and activities. This system of certification shall apply to all student organizations which seek recognition and/or chartering from the Colorado College Student Government Association.

Although the recognition and/or chartering of a student organization underscores Colorado College's commitment to provide a forum for the expression of ideas, this official certification does not necessarily imply the institution's agreement with and support of the proposed programs of any student organization.

The Colorado College Student Government Association, in certifying a student organization, requires that the aims of the organization contribute to the educational goals of the College and do not violate the civil rights of the members of the campus community.

Section A. Recognition of Students Organization

1. Definition of Recognition

- a. Recognition student organizations are private affiliations of students and are not official components of the College. Section C. Funding Guidelines for Student Organizations

1. The Colorado College Student Government Association funding guidelines are based on the principle that students should have responsibility in determining how the CCSGA operating budget is spent. Due to the College's tax exempt status and our College philosophy, however, we follow two principle guidelines in making decisions regarding funding of student organizations.
 - a. Section 401 of the Internal Revenue Code is 'Exempt from tax on corporations, certain trusts, etc.' Part c is a list of exempt organizations. Colorado College has been granted a tax exempt status under Section 501, c.3 which reads:

“Corporations, and any community chest, fund or foundation organized and operated exclusively for religious, charitable, scientific, testing for public safety, literary, or educational purposes, or to foster national amateur sports competition (but only if no part of its activities involve the provision of athletic facilities or equipment), or for prevention of cruelty to children or animals, no part of the activities of which is carrying on propaganda or otherwise attempting, to influence legislations (except otherwise provided in subsection [h]), and which does not participate in, intervene in (including the publishing or distribution of statements), a political campaign on behalf of (or in opposition to) candidates for public office.” Thus, the Colorado College Student Government Association cannot approve any request for funding from student organizations or individuals, which are contrary to the provisions of that statute. In particular, partisan political activities will not be considered for funding. Partisan political activities are those activities in support of or supported by any political party or candidate.

- b. Because Colorado College is an independent liberal arts college without religious affiliation, sectarian religious activities will not be considered for funding by the Colorado College Student Government Association. For the same reason, sectarian religious groups will not be considered for operational budgets.
2. Club Sports Funding Guidelines
 - a. In accordance with the club sports guidelines written by the Athletic Department, CCSGA shall not fund transportation, entrance fees or any other costs related to off campus sporting events.
 - b. CCSGA shall not fund new equipment purchases for club sports.
 - c. CCSGA may fund on campus club sports programming open to the entire CC community including but not limited to tournaments or philanthropic events.
3. The following are eligible to request funds from the Colorado College Association:
 - a. Chartered student organizations may request operational and special project funds.
 - b. All members of the Colorado College community, including Recognized Student Organizations may apply for special project funds under the funding guidelines
4. Funding Guidelines for Operational Budgets.
 - a. The operating budget presented for approval by Colorado College Student Government Association shall be consistent with the purposes and goals stated in the charter of the Organization.
 - b. At the end of the fiscal year, all unused fund will be returned to the Colorado College Student Government Association roll-over Fund.
5. Roll-Over Fund
 - a. Clubs may access the CCSGA emergency roll over fund through the guidelines listed in Section D.

Section D. Roll-Over Fund

PREAMBLE Two conditions have led to the buildup of students’ funds. The first condition is that each year’s council has set aside part of the budget in order to meet any unforeseen costs. It has also been the case that not all of the money allocated in each year’s budget to student organizations has been used. The money from these two sources has built up to such an amount that the Colorado College Student Government Association feels that a portion of this money should be made available to the student body.

The CCSGA also feels that fair guidelines must be established in order to govern the use of this money. These guidelines will serve two purposes. The first purpose is to maintain a fixed amount of money that will adequately protect CCSGA from any unforeseen costs. The second purpose of the guidelines will be to insure the use of the money for projects that are permanent in nature. In respect to the length of time it took to build up this amount of money, it is logical that any use of the money shall be limited to programs permanent in nature. It is also the recommendation that each council continue to contribute at least one-half percent of its annual budget to the Roll-Over Fund. Continuing to contribute to the Roll-Over Fund will insure that there will be money available for permanent projects in the future.

- a. An account with a fixed amount of \$5,000 will be established. This money will only be used for unforeseen costs that the CCSGA full Council unanimously agrees is an unforeseen cost. If the amount in this account falls below the \$5,000 level, money necessary to build the money back to the original level will first come from the remaining money in the Roll-Over Fund. In the event that there is no more money in the Roll-Over Fund, the current council will be in charge of implementing a plan through which funds will be added in order to reach the amount of \$5,000.
- b. Of the remaining money, one hundred percent can be used for permanent projects that the full Council, on the recommendation of the Executive Committee, and the Budget Committee, approves by a three-fourths vote. Of this money, as much as twenty-five percent can be used for discretionary purposes that the full Council, upon recommendation from the Executive and Budget Committees, approve with a three-fourths vote.

Section E. Revocation of Certification Status for Student Organizations

1. The Colorado College Student Government Association reserves the right to revoke the certification status and privileges granted by certification if a student organization fails to comply with the conditions stated in article V of the constitution.

ARTICLE VI. Rules of Governance

Section A. Rules of Order

1. CCSGA shall use Robert's Rules of Order: Newly Revised as a reference for any areas not covered in the Bylaws.

Section B. Amendments

- a. Any amendments to these Bylaws must be submitted in writing to the CCSGA Council two weeks prior to a Council vote to approve the changes. The motion must pass with a majority vote by the entire membership of the Council.
 - a. The only exception to this rule is that, should any changes be suggested before the Full Council has approved the bylaws at the beginning of any given year, one week is sufficient notice of the changes.

ARTICLE VII. Student Activities Fee Management

Section A: Distribution and Approval Process of the Student Activities Fee

1. The CCSGA Vice-President for Finance shall be required to present a list of recommended changes to the Student Activities Fee for the following academic year, accompanied by a written rationale for each, to the Full Council for consideration no later than the third week of Block 7.
2. The Full Council shall vote on each single proposed change to the Student Activities Fee, requiring a simple majority to pass.
3. No portion of the Student Activities Fee shall be distributed to any office, organization, or initiative, without an explicit written explanation of its intended function, provided by the CCSGA Vice-President for Finance or a representative of the relevant office, organization, or initiative, before the time of the Full Council vote on its approval.
 - a. At any time before voting on a proposed change to the Student Activities Fee distribution, any member of the Full Council may object to its aforementioned written explanation, and request that the Vice-President for Finance or representative of the relevant office, organization, or initiative revise the same before the proposed change is voted upon.
4. The Full Council need not vote upon any portion of the Student Activities Fee not under consideration for change or redistribution.
 - a. Any member of the Full Council may request at any time from the Vice-President for Finance an explicit written explanation of the intended function of a portion of the Student Activities Fee.
5. No member of the CCSGA shall change the distribution of the Student Activities Fee, approved by the Full Council per above, at any point in the academic year, without a new vote by the Full Council per above.
6. The distribution of the Student Activities Fee for the following academic year shall not be authorized until affirmed, per the votes designated above, by the Full Council; or, if in the case of VII.A.6.a, affirmed unanimously by the Executive Council.
 - a. If the distribution of the entire Student Activities Fee is not approved by the Full Council by the end of the Full Council meeting for second week of Block 8, the Executive Council must unanimously approve of the distribution before the end of Block 8.
7. The CCSGA, upon the completion of the above approval process, shall post the new Student Activities Fee distribution and all approved changes from the previous year on its website.
