

### **Mostafa Hatem Mostafa Zaki-Taha Personal Statement**

I am running for the position of VP of Internal Affairs, because I have a vision for what I want to do with the position. I strive to use this position to create a transparent and open environment, so that every CC student knows what is going on in their school and when important decisions are being made. I also plan on upholding all school codes, creating a fair environment where no one may gain an unfair advantage over another. In terms of my past experiences with leadership roles; I have been a leader of a student group here on campus for this entire school year. I would: organize events, apply for funding, listen to student concerns and interests, plan advocacy events for our group and help support an inclusive CC environment. I've also served for two years for Student government back in my high school as a council member, with all the leadership experiences that come with that. My main concern is raising awareness with students about CCSGA and how it functions, including getting students more active in voting and decision making processes.
